

How **EVERGREEN** reduces freight costs and speeds up response to disasters

48' Flatbed

Truck Loaded with Typical
20kW Towable Generators

Truck Loaded with
EVERGREEN Generators

When resources are stretched thin, **EVERGREEN** is better suited to respond to emergency situations by using less trucks to move the power where it's needed. Add the water heating capabilities and quick change electrical panel features, and once again the **EVERGREEN** is the best (and greenest) machine for the task.
