

Mobile Power 480W LED Light Tower

Diesel tow behind light towers are certainly a quick solution for lighting up dark areas at construction sites, and events. You know what's bad about light towers? Owning one. Especially if you operate a rental fleet of them.

Enter Rover...the easy to use, low cost, big feature, new kid on the "area lighting" block. First thing you'll notice about Rover is the propane tanks. This gives you clean quiet power and light for up to 4.5 days! Then we packed on other unique industry first features like "Multi-Tow" and Rover is the perfect partner to roam your next jobsite..
