

THE JUICEBOX ADVANTAGE

You have clean power options that do not include diesel fueled equipment or expensive batteries.

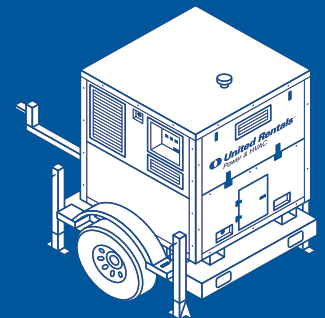

Who has the advantage when you put the Juice Box up against mobile diesel powered equipment today?

The diesel engine has had a good run but is now under attack and the search for clean reliable power is underway. The diesel generator industry is asking you to buy a portable battery that is up to 4X the cost of the generator itself to “green wash” it.

DIESEL GENERATOR

THE JUICEBOX

Able To Produce Power In Places Where There Is None

BOTH ARE CAPABLE

Cost To Buy - Acquisition Cost

JUICEBOX COSTS 10-20% LESS
